MEMORANDUM FOR: Chief, Plans and Programs Staff, OL

VIA: Director of Logistics

FROM:
Chief, Supply Division, OL

SUBJECT: Strategic Planning for OL

Bob:

1. A recent article in the DDA Exchange described the strategic planning process employed by the Office of Communications (OC). , Chief, Planning Staff, OC was good enough to send me the attached documents which explain in more detail how the process works. To some extent the process currently overlaps the Agency's MBO program, but they hope in the near future to have the MBO's in sync with the strategic plan subobjectives on a one-for-one basis.

2. I realize that OC is considerably larger than the Office of Logistics (OL) and that in some respects their planning process might be easier in that they frequently deal with the development of large technical systems rather than respond to day-to-day crises as we often do. Be this as it may, in an ~~area~~ of declining resources, it seems imperative that we identify specific goals on which we can concentrate the majority of our efforts. You may wish to consider how we might apply this process within OL.
